# CS 1704 Prerequisite Policy

The Computer Science Department rigorously enforces the prerequisite requirements for all courses. Additionally, for majors or minors in Computer Science the Department enforces the requirement that all prerequisite Computer Science courses be completed with a grade of C or better (not C-). Any student not meeting these requirements and not obtaining written permission from the course instructor to remain in the course must withdraw from the course within the first week of classes. Any student who is subsequently found to not meet these requirements will be subject to an honors violation report on the basis of falsification of qualifications. Instructors are **not** bound to investigate the records of students to ascertain their prerequisite status; this is the student's own responsibility.

- A student who has received an "incomplete" in a prerequisite course is **not** considered to have completed that course.
- Students who were permitted by the Dean's office to defer the final examination of a prerequisite course for medical or personal reasons must consult with the instructor of the subsequent course and obtain written permission before continuing in the class.
- A student who anticipates a change of grade in the prerequisite course which will result in being qualified to register for the current course must submit a copy of the change of grade form to the instructor within the first week of classes.

Course Number:  CS 1704          Semester:  Spring          Year:     2000

Student Name:                                                   Major:

Student ID:

## Prerequisites:

| | | |
|---|---|---|
| CS | 1044 | Intro Programming in C++ |
| | or | |
| CS | 1344 | Programming in C++ |

- CS 1704 is restricted to undergraduate Computer Science majors; other students will be admitted only if space and support are sufficient.
- For CS majors, CS 1044 must have been completed with a C or better.
- Students enrolled in majors in the College of Engineering should take a section of ECpE 2574 taught by Engineering faculty. Exceptions will be made only for Engineering students who have completed CS 1044 with a C or better and are seeking admission to the Computer Science department.

**I will grant absolutely no exceptions regarding prerequisites or major/level restrictions, no matter how compelling you think your circumstances are.**

## If you <u>do currently</u> meet the prerequisite requirements:

I confirm that I have completed all published prerequisites for this course with the required grade(s).
