Project 3 Deliverables: Scenarios, Screen Design, and Early Prototype

Team ______
Grade ______

______ Project 3 Tab
______ Previous Assignments

Project 3 Contents (numbered and labeled as per assignment):

0 ______ Synopsis
1 ______ Detailed scenarios
    ______ Scenario 1
        ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
    ______ Scenario 2
        ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
    ______ Scenario 3
        ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
    ______ Scenario 4
        ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
    ______ Scenario 5
        ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
   ______ Scenario 6
   ______ References to physical actions, user interface objects, task context
2 ______ Figures interspersed
3 ______ Scenario role, objects, etc. highlighted and labeled
4 ______ Description of iteration process
5a ______ Description of use of screen pictures in low-fidelity prototype
   ______ Description of client walk-through process (not results)
5b ______ Description of walk-through results
   ______ What you learned
   ______ Usability issues and questions
   ______ Design changes resulting
