- A "help" screen contains this information on the system’s "help" facility:
The comma key on the minikeypad is the HELP key for forms. While in the ABC-Style Editor and Calendar, use PF2 for HELP; use "H" for HELP while in the Desk Calculator; use the "gold" key plus "H" key while using the XYZ-Style Editor. By the way, if you need help creating a document, it is better to be in the Word Processing Menu when you press HELP rather than in the main menu. It is a good idea to remember the location and purpose of each key mentioned above.
