

This is a purely individual assignment. Prepare your answers to the following questions in a plain ASCII text file or a Word document (doc or docx). Submit your file to the Curator system by the posted deadline for this assignment. No late submissions will be accepted. No other formats will be graded.

You will submit your answers to the Curator System (www.cs.vt.edu/curator) under the heading OOC02.

Go to **both** of the following sites and take the personality type assessment tests available there.

- [Humanmetrics](http://www.humanmetrics.com/cgi-win/JTypes1.htm) (<http://www.humanmetrics.com/cgi-win/JTypes1.htm>)
- [Similarminds](http://similarminds.com/jung.html) (<http://similarminds.com/jung.html>)

Alternate link for [Similarminds](http://sminds.com/mbti/) (<http://sminds.com/mbti/>)

You will turn in a write-up (about a page) describing the feedback that you got from the test sites.

Be sure to include the scoring information that you were given by each of the sites, and the MB type classification that each site gave you.

Read up about your classification(s), and comment on how accurate you consider it to be as a match for your own personality. (The Wikipedia article on the personality type classification system is pretty good.)

Consider "nearby" classifications and comment on whether you think they are more or less appropriate descriptions for you.

To make things easier for the TA who will evaluate these, please report your scores by putting them into a table like the one below, at the beginning of the file:

Test	Type classification	I/E score	S/N score	T/F score	J/P score
HM					
SM					

For example, if you got the following report from the Humanmetrics site you'd fill in the table row as shown below:

Introverted (I) 39

Intuitive (N) 38

Thinking (T) 62

Judging (J) 89

Test	Type classification	I/E score	S/N score	T/F score	J/P score
HM	INTJ	39	38	62	89

(I just reported the single score for each classification.)

For example, if you got the following report from the Similarminds site you'd fill in the table row as shown below:

Extroverted (E) 50% Introverted (I) 50%

Sensing (S) 59.38% Intuitive (N) 40.63%

Thinking (T) 69.44% Feeling (F) 30.56%

Judging (J) 67.74% Perceiving (P) 32.26%

Test	Type classification	I/E score	S/N score	T/F score	J/P score
SM	ESTJ	50/50	59/41	69/31	68/32

(I just rounded the values off, reporting the scores for both classifications.)
