

This is a purely individual assignment. Prepare your answers to the following questions in a plain ASCII text file or a Word document (doc or docx). Submit your file to the Curator system by the posted deadline for this assignment. No late submissions will be accepted.

You will submit your answers to the Curator System (www.cs.vt.edu/curator) under the heading OOC01.

Take the *Index of Learning Styles Questionnaire* at:

<http://www.engr.ncsu.edu/learningstyles/ilsweb.html>

You will turn in a write-up (about a page long) about your experience with this test. Report the four scores that you received. Read this discussion about the scores:

<http://www4.ncsu.edu/unity/lockers/users/f/felder/public/ILSdir/styles.htm>

Describe in your write-up how well you feel that the test actually matches your learning styles.

Think about and then describe in your write-up what types of classes work for you and which do not. (By "type of class" I mean teaching approach, not content of the course.)

How much did taking this test and reading the description help you to understand your own learning style preferences?

While this may strike you as a very unusual assignment, there is value in giving some careful consideration to how you reacted to the survey question. In my opinion, the most important aspect of your education is learning how to learn. Achieving a better understanding of your learning preferences can only aid in that.
