

Date: Monday, Oct 17 11:15am to 12:05pm
Location: MCB 230

Format:

The midterm exam will consist of 3-5 questions.

It will be open book, open notes, but closed computer/without wireless access.

You are responsible for the content of lectures 3 through 9 as well as the following papers, from which questions will be drawn primarily:

- Eraser
- Duality of OS structures
- SEDA
- Capriccio
- Implementing RPC
- Time, Clocks, and the ordering of events
- Leases
- Effects of clock resolution
- VTRR Scheduling

A sample midterm (attached) is also posted on the class website. I will be out of town, Wensi will administer the midterm.
