

Date: Wednesday, Nov 6 4:00pm to 5:15pm
Location: MCB 329 (Usual classroom)

Format:

The midterm exam will consist of 3-5 questions.

It will be open book, open notes, but closed computer/without wireless access.

You are responsible for the content of all lectures so far well as the following papers, from which questions will be drawn primarily:

- Eraser
- RaceMob
- CFix
- PARROT
- Transactional Memory
- Fast Dynamic Binary Translation
- From L3 to seL4
- Optimistic Crash Consistency
- VirtuOS

There are 7 sample midterms on the class website in the Documents section. The lecture slides are available via the class website as well.
